

Initial Build Notes 11/14

Designer: Ellie Kosowsky

Creative Director: Jacqueline Yoon

It's looking good! Just some minor design-orientated adjustments.

Banner:

- Try to make the "The Nutcracker" logo white to match the rest of the navigation text
- Maybe add a little breathing space with the "The Nutcracker" logo and the top of the page so it matches the bottom of the text

Home Page:

- Would like to see the body text in a little bit of a smaller size
- Limit the body text so it does not extend past the title above it
- Add just a bit of space between the main photo and the button boxes
- Would like to try and see what the "History," "Plot," "Music," and "Characters" buttons would look like if they were in the serif font like the navigation

History:

- Would like to see the title the same as the home page, music, and characters pages
- Would like to see the body text in this page smaller

Plot:

- Would like to see "Plot of the Nutcracker" in the same styling as the other pages and above the gifs

Music:

- Would like to see this styled similarly to the characters page
- Maybe having a way to play the music so audience can press play and listen

Characters:

- Maybe adjust the characters' names so they are just a bit smaller?
