## Project Title: [The Nutcracker \(Ballet\) Website](#)

This website explores The Nutcracker as a famous and timeless classical ballet. The site will span multiple pages discussing the origin, plot, and structure of the show. It will likely consist of a navigation bar across the top, various photography, interactive music elements, and more. By constructing a website with an aesthetic that matches the ballet, viewers will be able to enjoy the show while becoming more educated.

- **Home Page/Introduction** - Introduce the Nutcracker as a classical ballet and set an “elegant” and Nutcracker-themed tone for the site.
- **Origin** - How did The Nutcracker come to be?
- **Plot/Structure/Music** - Summary of the ballet, the acts, and the iconic instrumentation.
- **Modern Times** - What does The Nutcracker look like today?
- **Sources** - List of sources, including the Wikipedia page, photography, and other credits needed.
